- (3) Upon the request of and authorization by the charterer, the carrier shall act as agent for the charterer and arrange for the facilities and services set out in subsection (1) and the charterer shall be charged the costs incurred by the carrier in providing them.

Rule 27: Minimum Charges

- (1) When the charges for flying are less than the applicable minimum charges per aircraft published in Table II, the minimum charges per aircraft are applicable.
- (2) Except as provided in **Rule 28.1.c**, the minimum charge for flying on term charters is the amount computed by multiplying the number of days or months each aircraft is on the term charter by the applicable minimum charge per aircraft per day or per month.
- (3) The minimum charge per aircraft per month is applicable when it is less than the charge resulting from the application of the minimum charge per aircraft per day.
- (4) For days beyond a period of a whole month, one-thirtieth of the applicable minimum charge per aircraft per month is applicable to each such day.
- (5) In term charters of less than one month when the aircraft is available for less than an average of five hours per day, the minimum charge per aircraft per day is an amount bearing the same proportion to the applicable minimum charge per day in Table II as the average number of hours of availability per day bears to an average of five hours per day.
- (6) In term charters of one month or more, when the aircraft is available to the charterer for less than an average of twenty-five days per month the minimum charge per aircraft for the period of the charter is reduced by one-thirtieth of the applicable minimum charge per aircraft per month for each day the aircraft is unavailable less than the average of twenty-five days.

Rule 28: Application of Zone Rates and Charges

- (1) The applicable rates and charges are those in effect in the zone in which each flight originates, except as follows:
 - (a) A flight originating on a zone boundary line is subject to the lower of the rates and charges applicable in the zones separated by that boundary line;
 - (b) When, to meet the requirements of the carrier, a stop is made in a zone different from that in which a flight originates, there is no change in the applicable rates and charges; and
 - (c) When on a term charter flights originate in more than one zone, the minimum charge applicable to each zone is applied to the number of days, for charters of thirty days, or months, for charters of thirty days or more, that bears the same proportion to the total number of days or months to which minimum charges are applicable on the charter as the number of hours flown in each zone bears to the total hours flown pursuant to the charter.

 - (d) Another base of the carrier,
 - (e) The place at which another charter is to commence, or
 - (f) The place at which the carrier requires the aircraft for operational reasons.
- (2) Where the chartered aircraft is on a term charter subject to rates per hour and the hours flown for positioning and depositioning the aircraft calculated from and to the carrier's base under the provisions of paragraph (1) (a) but the flight of the aircraft commences and terminates at places other than the carrier's base, the hours flown between the carrier's base and the places of commencement and termination of the work provided for in the charter shall be determined as follows:
- (a) The mileage between the carrier's base and place of commencement or termination of the work provided for in the charter measured in accordance with **Rule 42** is divided by the block speed determined by dividing the rate per hour for non-term charters by the rate per mile for non-term charters published in Table II.

Rule 45: Charges for Landings on Non-Term Charters
